Innov8 Hub

Open Position: Mobile Application Developer
Location: Innov8 Hub, Abuja, Nigeria
Employment Type: Full-time, Permanent, Onsite
Experience Level: Mid Level (3 –7+ years)
Deadline: 30 January, 2026

COMPANY PROFILE

Innov8 Hub is a not-for-profit, non-governmental organization with a mandate to groom innovators, researchers, creatives, and venture creators. We strategically aid and collaborate with organizations and individuals seeking to transform their ideas into solutions.

JOB SUMMARY

We are seeking an experienced Mobile Application Developer to design, build, and maintain high-quality mobile applications that deliver outstanding user experiences. The ideal candidate is proficient in modern mobile development frameworks, has strong UI/UX sensibilities, understands scalable architecture, and can collaborate effectively with cross-functional teams including back-end developers, DevOps engineers, and product stakeholders.

KEY RESPONSIBILITIES

• Design, develop, and deploy high-performance mobile applications for Android and/or iOS.

• Work with product and UI/UX teams to transform requirements and designs into functional features.

• Integrate mobile apps with backend APIs, cloud services, databases, and third-party tools.

• Ensure code quality through unit testing, automated testing, and code reviews.

• Optimize performance, responsiveness, memory usage, and battery efficiency.

• Maintain and update existing applications, including bug fixing and feature enhancements.

KEY RESPONSIBILITIES

- Implement secure application practices for authentication, authorization, and data protection.
- Contribute to architectural decisions around mobile technology stack, CI/CD, and scalability.
- Write comprehensive development documentation (API usage, app architecture, release notes)
- Publish and manage apps on Google Play Store and Apple App Store.

REQUIRED QUALIFICATIONS & SKILLS

Education

- Bachelor's degree in Computer Science, Software Engineering, or related field (preferred, not mandatory).
- Relevant certifications in mobile development or cloud platforms are a plus.

Required Competencies

- Proficiency in one or more development stacks:
- Flutter/Dart
- React Native/JavaScript/TypeScript
- Native Android (Kotlin/Java)
- Native iOS (Swift/Objective-C)
- Strong understanding of:
- RESTful APIs and JSON
- State management patterns (e.g., Bloc, Provider, Redux, MobX, MVVM, MVU)   Push notifications (Firebase Cloud Messaging / APNs)
- Offline-first patterns and local data storage (SQLite, Hive, Room, Core Data) Experience with Git/GitHub/GitLab source control workflows.
- Familiarity with CI/CD pipelines for mobile deployments (Fastlane, CodeMagic, Bitrise, GitHub Actions).
- Experience publishing on App Store / Play Store, including handling reviews and release processes.

PREFERRED SKILLS

- Experience with cloud platforms (Firebase, AWS Amplify, Google Cloud, Azure).
- Knowledge of GraphQL, WebSockets, MQTT, or BLE communications.
- Understanding of mobile analytics tools (Firebase Analytics, Mixpanel, AppCenter).
- Familiarity with secure coding standards and mobile cybersecurity.
- Experience integrating maps, geolocation, camera, sensors, or payment gateways.

SOFT SKILLS

- Strong problem-solving and debugging capabilities.
- Good communication and reporting skills.
- Detail-oriented with a focus on user experience.
- Ability to work within an agile development environment.
- Self-motivated and capable of meeting technical milestones independently.

REMUNERATION

Salary Range – Open - Initially dependent on experience, thereafter on performance

HOW TO APPLY

Interested candidates are encouraged to submit their CVs and Cover letter to **hr@innov8hub.ng** on/before 30 January, 2026
