f @ X in d InnoV8 Hub

Open Position: Full-Stack Software Engineer (Cloud, DevOps)

Reports to: Head of Software

Job Type: Full-time

COMPANY PROFILE

Innov8 Hub is a not-for-profit, non-governmental organization with a mandate to groom innovators, researchers, creatives, and venture creators. We strategically aid and collaborate with organizations and individuals seeking to transform their ideas into solutions.

JOB SUMMARY

We are looking for a versatile and experienced Full-Stack Software Engineer with strong expertise in cloud infrastructure, DevOps, and AWS. This role requires a well-rounded engineer capable of building scalable applications while managing and optimizing the underlying infrastructure that supports them.

KEY RESPONSIBILITIES

Full-Stack Engineering

- Design, develop, and maintain front-end and back-end applications using modern frameworks and technologies.
- Build scalable APIs and services to support application features.
- Collaborate with UI/UX teams to implement responsive, user-friendly interfaces.
- Optimize full-stack application performance, security, and maintainability.
- Integrate third-party APIs, authentication systems, and cloud services into applications

KEY RESPONSIBILITIES

Cloud & DevOps

- Architect, deploy, and manage cloud infrastructure on AWS, including EC2, Lambda, S3, RDS, ECS/EKS, CloudFront, and VPCs.
- Implement and maintain CI/CD pipelines to automate build, test, and deployment processes.
- Manage Infrastructure as Code (IaC) using tools such as Terraform or CloudFormation.
- Monitor cloud workloads and ensure high availability, scalability, and performance.

REQUIRED QUALIFICATIONS & SKILLS

Education

- Bachelor's degree in Computer Science, Engineering, or related field (or equivalent experience).

Experience

Proven experience as a Full-Stack Engineer, with strong skills in:

- Front-end: React, Vue, Angular, or similar frameworks
- Back-end: Node.js, Python, Java, or similar languages
- Databases: PostgreSQL, MySQL, MongoDB, DynamoDB
- Strong knowledge of AWS cloud services and architecture.
- Hands-on experience with DevOps tools (Docker, Kubernetes, Jenkins, GitHub Actions, GitLab CI, etc.).
- Experience with Linux server administration.
- Strong scripting skills (Python, Bash, PowerShell).
- Ability to troubleshoot issues across the full stack—frontend, backend, and cloud
- Strong problem-solving and teamwork skills.

PREFERRED SKILLS

- Experience with Terraform, Ansible, or other IaC tools.
- Familiarity with microservices architecture.
- Experience with AWS security practices and DevSecOps.
- AWS Certifications (Solutions Architect, Developer, SysOps, DevOps Engineer) are an advantage.
- Experience with distributed systems, message queues, and large-scale architectures.

REMUNERATION

Salary Range – Open – Initially dependent on experience, thereafter on performance

HOW TO APPLY

Interested candidates are encouraged to submit their CVs and Cover letter to **hr@innov8hub.ng**.
